## GLADETINO™

### GLADETINO FROM DECO LIGHTING

The Gladetino is a low-profile LED area light designed to provide efficient, high-quality lighting to a range of exterior solutions.

The Gladetino features top-of-the-line Nichia LED and provides up to 150 lumens per watt making it an ideal fixture for applications where both quality of light and level of output are important, including dealerships, parking lots and roadways. The series is available in four color temperatures (3000k, 3500k, 4000k, and 5000k) and can be ordered in with an option 95CRI LED chip for applications that require excellent color distinction. The Gladetino has a variety of options that make the fixture applicable on a connected-lighting project, including motion sensing, dimming, and a photocell.

The Gladetino has an L80 rating of up to 196,000 hours (at 55°C) and has a 10 year warranty for long-lasting performance and increased savings in maintenance and energy usage over the life of the fixture.
